Everywhere it matters. Ecolab is your trusted partner

Professional Sanitation Solution

Provide effective sanitising service to reduce risk

Well-trained & well-equipped Service Team

Service Team are well trained with effective equipment and treatment experience

Selected effective sanitiser

Broad range efficacy against a wide range of micro-organisms

Customer Preparation

How can you help Ecolab before we arrive?

- 1) Remove all food, cover any surfaces that cannot be treated with aqueous solutions (fabric, porous surfaces, food, cardboard, etc.)
- 2) Pre-clean all surfaces (to be sanitised) to remove debris.
- 3) All staff/employees must be vacated from the treatment area.
