

FURNITURE PRESERVATION SERVICES

Eliminate bed bugs and preserve your furnishings

You can count on our highly trained Service Specialists to quickly deliver effective, science-based techniques. Our higher standard of service helps ensure consistent bed bug elimination while preserving your valuable furniture investment.

34% of an infestation cost goes to furniture replacement
(independent Ecolab data)

PROVEN TREATMENT OPTIONS FOR INFESTED FURNISHINGS

Our exclusive, two-part **Vapor Treatment with Mattress Encasement** includes a plant-based biopesticide that eliminates bed bugs in box springs and valuable furniture items, followed by a mattress encasement that protects from future activity.

Ecolab's patented **Thermal Enclosure** unit inflates and gently heats to a temperature that's lethal for bed bugs but safe for your valuable furniture items.

✓ Safe for staff and guests

✓ Protects your reputation

✓ Lowers costs

WE ARE COMMITTED TO A HIGHER STANDARD
